## > Features

### The First 4K 60FPS Dash Cam in the Market

Featuring the latest video processing chip and Sony STARVIS 2 technology, A329 delivers ultra-smooth, crisp 4K 60fps and 2K videos, capturing license plates and every detail with exceptional clarity day and night.

### The First Dash Cam with External SSD Support

This innovation significantly extends your camera's recording days, allowing up to over 3 weeks of footage. Immerse yourself in long-distance driving tour and forget about storage concerns. No more worries about frequent overwriting.

### Dual Sony STARVIS 2 Image Sensors

Powered by dual Sony STARVIS 2 image sensors, A329 achieves less noise in low light and less motion blur in fast motion, capturing exceptionally clear and sharp videos.

### Faster, Smoother 4K Streaming with Wi-Fi 6

A329 is the first model to use Wi-Fi 6 technology, which boosts operation speed by 3 times in the 5GHz band. A 1-minute video can be downloaded in under 10 seconds. It offers significant convenience in case of emergency.
